Policies and Procedures

Description of Course

The purpose of any language is to communicate. With that in mind, lessons are structured to provide students with multiple opportunities to actively use the language in meaningful and authentic situations.

In French 2 students will continue to develop and expand language skills learned in French 1. They can expect to learn and to be able to perform more complex communication tasks in all four language skills: listening, speaking, reading, and writing. These will include such things as extended and creative conversation, past and future narration in all tenses with the use of complex sentences, in depth discussion of other places, people, and events, respond to various stimuli and deal with the unexpected.
